

Remarks

The amendments presented herein are being made to conform the application with the provisions of 37 CFR §§1.821 through 1.825. Applicants would like to thank the Examiner for the courtesy of the telephonic conference conducted with Applicants' undersigned representative on January 19, 2005 during which the Examiner and Applicants' representative discussed proposed amendments to the specification and sequence listing to place the subject application in condition for allowance. Applicants respectfully submit that the amendments to the specification and sequence listing herein are in accordance with the substance of the telephonic conference with the Examiner.

Specifically, the Examiner indicated that Figures 2, 3, and 5 on page 7 of the subject specification did not include a sequence identifier for sequences referred to in those figures. The Examiner further indicated that the sequence referenced in Figure 4 was not included in the sequence listing. By this Amendment, Applicants have amended the subject specification to include the SEQ ID NO. associated with the sequence of Figures 2, 3, 4, and 5 of the specification and have also submitted a replacement sequence listing which includes the sequence shown in Figure 4.

I hereby certify that no new material is being added by this submission.

The Commissioner is hereby authorized to charge any fees which may be required to Deposit Account No. 19-0065.

Respectfully submitted,

Doran R. Pace
